GOVERNOR FIRES FIRST DEFENSE GUN

REPUBLICANS IN STATE MEETING FLAY GOVERNOR

Dissatisfied Democrats In-
vited Into Fields Fold
This Fall.

SOCIALISM IS SCORED

Mixed Planks of Opposite
Party Denounced Today
By Convention.

OKLAHOMA CITY, Aug. 28.—
Appealing to Oklahoma democrats
to abandon party lines in order to
defeat J. C. Walton, democratic
candidate for governor, John Fields,
his republican opponent, today opened
a bitter attack on the present
state administration in an address
before the republican state conven-
tion here.

Mr. Fields defined the Walton
platform as a "Russianized concep-
tion of the democratic standards"
and called for the release of the
state from overwhelming democratic
majorities.

"Bullying majorities by any party
in any state are an evil," he as-
serted in opening his address.

(By the Associated Press)
OKLAHOMA CITY, Aug. 28.—
Denunciation of Governor Robert-
son's democratic administration and
an invitation to all democrats who
are dissatisfied with the administra-
tion or with the so-called socialistic
element in the platform adopted at
the recent democratic convention to
join the ranks of the republican
party for the coming election are
among the planks laid down by re-
publican leaders in a tentative plat-
form to be submitted to the repub-
lican state convention which opened
here this afternoon.

Suggest Coalition
A coalition government will be
suggested, according to the plans of
republican leaders this morning. It
was understood that there will be
no direct offer to distribute appoint-
ment offices between democrats and
republicans, but that democratic ticket
will be accorded places "of honor and
importance" under the republican
administration.

A. C. Alexander, chairman of the
republican state executive commit-
tee announced today that Miss Alice
Robertson, Oklahoma's congress-
woman, will be recommended by the
executive committee as temporary
and probably permanent chairman.
Republican leaders this morning de-
nied that the Ku Klux Klan would
be made an issue of the convention.

Extension Head Off to Complete Visits for Local College

Prof. A. L. Fentem, head of the
Extension Division of East Central
Teachers College, started out today
for Sasakwa, Wewoka, Holdenville,
Yeager, Wetumka, Okemah,
Prague, Barden, Paden, Weleetka,
Henryetta, Okmulgee, Beggs, Morris,
Calvin, Allen, and other towns
where he will organize extension
classes and get the year's work
started.

Last week he made Wynnewood,
Pauls Valley, Maysville, Lindsay,
Washington, Purcell, Shawnee, Mc-
Cloud, Tecumseh, Asher, Wanette,
Tribbey, Macomb, Seminole and
Konawa. At all of these places he
found great enthusiasm for the local
college and a spirit of pro-
gress never before witnessed among
the teachers of the state.

Prof. Fentem says he also came
across many young people who are
planning to come here this fall to
enter school. The only thing, he
thinks, that will stand in the way of
a very large enrollment is the con-
dition of the cotton crop. Some of
the young people cannot come unless
a fair cotton crop is produced.

BEBEE BEATS VANOSS IN DECISIVE BATTLE

Bebée's school baseball team had
a great day Saturday when they got
revenge on the Vanoss Consolidated
School team by the decisive score of
14 to 4. The game was played at
Bebée and at no time did the visitors
have a chance.

Clarence Morrison, one of the
teachers in the Bebee school, is
coaching the team which has had
but few defeats this season. Several
hard games are scheduled for the
remainder of the season.

Japan has 117 pencil factories.

Fat, But Fortunate

Someone loves
a fat man,
for
Walter Hiers,
screen
Falstaff,
is to wed
Miss Adah
McWilliams,
Syracuse
heiress,
though
he is
unsuccessful
film lover.

(By Central Press)

SYRACUSE, Aug. 28.—You can
never tell from real life just what
is going to happen in real life. Wit-
ness:

Walter Hiers, the film comedian,
he of the Falstaffian proportions.
Film fans all over the country
know Hiers as the screen's most
ludicrous and unsuccessful lover.
They have seen him a hundred at-
tempted flirtations and hurry-up
romances on the screen.

And always with the same result
—his elephantine blandishments
have failed to captivate the flapper
or rural maid of his celluloid
choice much to his physical and
mental discomfort.

Well, to make it short Walter's
engagement to Adah McWilliams,
heiress to the shoe millions of the
McWilliams family here, has just
been announced.

Announced in spite of the ob-
jections of her family to the match
because Miss McWilliams is but
seventeen.

But what were little things like
family objections to the mastodon
comedian accustomed to custom-
ary barrages, impromptu duckings

and other things calculated to cool
the ardor of his affections? Nothing,
no sir, nothing at all.

Of course the origin of the ro-
mance is still veiled in secrecy but
it is unreasonable to suppose that
having seen him rebuffed, knocked
down, rolled over, punched and other
wise abused, filmically speaking, her
heart finally went to him.

Anyway, regardless of how Dan
Cupid first got in his deadly work,
Miss McWilliams' family objected.
They objected strenuously and didn't
hesitate to let their objections be-
come known.

But as was detailed before, Hiers,
used to overcoming—or trying to
overcome—everything from cus-
tard pies to steam rollers, was un-
daunted and—well, the engagement
was announced.

The wedding is to take place next
Christmas and all objections have
been withdrawn it looks as though
Hiers was to have smooth sailing.

All of which goes to prove that
the illustrious guy responsible for
the familiar saying "nobody loves a
fat man" was wrong Jeems, all
wrong.

ADA FOLKS MAKE HEAVY CATCH OF GALVESTON FISH

Ada anglers are setting the
pace for Texas fishermen, ac-
cording to press accounts re-
ceived here Monday from Gal-
veston by Jack Kitchell, of the
American Oil and Refining
company, from relatives who are
spending their vacation near
Galveston.

Following is the story, from
the Galveston Daily News of
Friday, August 25:

"A party of ten visitors from
Oklahoma, Kansas and Houston,
yesterday reported catches of
275 and 175 pounds of red-
fish, mackerel and trout which
they made Tuesday and Wed-
nesday. The party consists of
Mr. and Mrs. C. J. Skirvin and
son of Ada, K. Kitchell of Wich-
ita, Kan., Mr. and Mrs. Verne
Fletcher, S. B. Fletcher and
Miss Maud Adcock of Houston,
and Mrs. C. E. Kitchell and Ro-
derick Kitchell of Galveston.
The party chartered a launch
both days, their initial success
Tuesday promoting their sec-
ond trip the following day."

After reading the headlines
which say: VISITORS CATCH
450 POUNDS OF FISH ON
TWO EXCURSIONS." Jack
Kitchell and Bill Coffman de-
clared Monday that a typo-
graphical error surely had been
made and added that the Gal-
veston paper meant "4 or 5
pounds" or else "4500 pounds."

BONE DRY MEXICO IS PROPOSED NOW In RECENT BILL

(By the Associated Press)
MEXICO CITY, Aug. 28.—The
possibility of Mexico being made
"bone dry" is again being seriously
discussed here. It is announced that
several deputies will propose a "dry
bill" as soon as congress begins its
session, General Calle, chief of Cab-
inet and secretary of the interior
and Minister Delaw Huerta, advo-
cate of such legislation, said.

The belief prevails that a dry law
modeled after the Volstead law in
the United States will be introduced,
although it is not believed the mea-
sure will be enacted.

SHAWNEE GUARDS ARE FIRED UPON

Snipers Are Arrested as
Result of Outbreak
at Rail Shops.

(By the Associated Press)
SHAWNEE, Aug. 28.—Several
pot shots were taken at United
States marshals on guard at the
Chicago, Rock Island and Pacific
railroad yards here last night with
no one reported injured, according
to Deputy Marshal Fossett in charge
of the guard this morning.

Deputy Fossett reported two
strikers who were found on the
streets carrying rifles were placed
under arrest and taken to "another
city" to jail because an attempt-
ed delivery was feared after their
arrest was known about the town.

About half a dozen shots were
fired, Fossett said. Guards who were
he targets were standing under an
arc light near the scenes of the
dynamite bomb explosion of Thurs-
day night. One of the men arrested
lived within a block of that point,
the marshal declared.

Four Charged With Train Disaster in Jail at Gary, Ind.

(By the Associated Press)
GARY, Ind., Aug. 28.—Four of
nine men declared to be under ar-
rest in connection with the wreck-
ing of a Michigan Central express
train here on August 20 admit they
are striking railroad shopmen and
one of them today told a story of
how they had loosened a rail which
ditched the express and killed the
engineer and fireman. More arrests
are expected and police and rail-
road agents continue to throw much
secrecy around the case.

Marriage License
Allen Jackson, 22, Ada, and Miss
Elizabeth Lucas, 17, Ada.
Jim Boucher, 22, Stonewall, and

MAINTENANCE OF WAY FORCE ASKS FOR WAGE BOOST

New Demand today Throws
More Serious Light
on Rail Strike.

C. AND A. IS TIED UP

Striking Trainmen Still
Have Strangle Grasp
Upon Traffic.

(By the Associated Press)

CHICAGO, Aug. 28.—The tie-up
of the Chicago and Alton and the
appearance of maintenance of way
workers before the United States
Railroad labor board, seeking higher
wages, were high lights in the
nation's railroad strike situation to-
day, the fifty-ninth day since rail-
road shopmen went out on strike.

Striking trainmen who walked
out at Roodhouse, Ill., and Slater,
Mo., still had a strangle hold on traf-
fic on the C. and A. Striking clerks
and firemen aided the trainmen.

A few remained at work in the
round house at Roodhouse during
a series of bombings, promiscuous
shootings and attempts to dynamite
two railroad bridges near the town.
Train dispatchers and the regular
staff of telegraphers remained at
their desks but had little to do.

With the blockade at Roodhouse
completed, postal inspectors were
investigating the delay of a Chicago
and Alton mail train at Slater and
Marshall, Mo. It was said to be the
first instance of interference with
mails in Missouri.

Non-Union Man Flees

A non-union man who took the
place of a union fireman fled after
firing the mail train's engine to
Marshall when he learned that
strikers had followed the train in
an automobile from the former
town.

On the eve of the maintenance of
way workers hearing before the
labor board here, trackmen on the
Missouri Pacific at Jefferson City,
Mo., joined the walkout of train-
men in protests against the pres-
ence of armed guards and Deputy
United States marshals in the shop
and yards. Freight service there
was at a stand still.

B. M. Jewell, leader of the shop-
men's strike, expressed confidence
in victory for the shopcrafts in
strike.

California Voters Engage in Primary Contests Tuesday

(By the Associated Press)
SACRAMENTO, CALIF. Aug. 28.—
Voters of California will be called
out by a state wide primary elec-
tion tomorrow to pick party gov-
ernors for United States senator, gov-
ernor and congressman from eleven
districts and a number of important
state offices and judicial positions.

Interest centers around the con-
test for the republican nomination
for United States senator between
Hiram W. Johnson, the incumbent,
and Charles Moore of San Francisco.

Bandits Are Seized

CHICAGO, Aug. 28.—Three ban-
dits, said to be wanted for a bank
robbery in St. Louis, were arrested
early today in connection with the
hold-up of two physicians here sev-
eral weeks ago.

Miss Columbus—Miss Katherine Campbell.
Miss Katherine Campbell, sixteen and a high school student, five
feet five inches of charming personality, has been chosen to represent
Columbus, Ohio, in the coming Atlantic City pageant.

75 ENTOMBED IN MINE AT FRISCO

Fire Entraps Whole Crew
But Rescue Party is
Rushed to Scene.

(By the Associated Press)
SAN FRANCISCO, Aug. 28.—
Seventy-five men, comprising the
entire force of the Argonaut mine,
Jackson, Amador county, are en-
tombled in the mine as the result
of a fire which broke out at mid-
night, according to a report received
by Byron Pickard at Berkeley,
of the state bureau of mines, from
the superintendent of the mine.

A rescue party headed by Pick-
ard left Berkeley for Jackson early
today to affect a rescue of the
men held in the mine below the 3-
000 foot mark.

The California Industrial Ac-
cident commission was advised early
this morning by telephone that A.
Abergani, manager of the mine,
had enlisted the aid of a rescue
party and gone into the mine shaft
in an attempt to smother the
flames.

DISTRESSED MINERS STILL BELOW SURFACE

(By the Associated Press)
JACKSON, CALIF. Aug. 28.—The
75 men entombed in the famous Ar-
gonaut gold mine, below the 3500
foot level, by fire which broke out
in the main shaft shortly before mid-
night, were still in the mine this
morning. The fire continued burn-
ing and efforts were being made to
reach the mine through the aban-
doned Muldoon shaft which touched
the vein where the men were work-
ing.

The Muldoon shaft has been used
as an airfeed to the mine in re-
cent months.

FLAMES SEPARATING MEN FROM RESCUE

(By the Associated Press)
SACRAMENTO, CALIF. Aug. 28.—
The men entombed in the Argonaut
mine at Jackson, were working on
the 4300, 4400 and 4500 foot lev-
els, below the depth of the Mul-
doon shaft, according to advices just
received by the Sacramento Bee. The
superintendent said that for that
reason it probably would be impos-
sible to rescue the entombed men ex-
cept by extinguishing the flames.

Weather

Tonight fair, warmer in east por-
tion; Tuesday fair.

Local Boys Take Radio on Outing as an Amusement

For the first time in local his-
tory radio has become popular as
an outing amusement. Dean Spencer
and Burgess Steed, who spent a
week camping on Blue this month,
used their radio set for part of the
entertainment at camp.

The boys have a small set which
they packed with their camping
equipment when they left. The first
day they used the set, a good con-
cert from Kansas City was picked
up and almost hourly messages were
received, they said.

Natives of the section where they
camped were probably more inter-
ested in the workings of the set
than any other contraption which
any campers had ever before brought
into that country, according to the
story told by the youthful campers.

Farmers and school children, as well
as residents from the town of Pon-
totoc, were among the audiences at
the concerts.

Their aerial was fastened to the
trees and little static was encoun-
tered. This is believed to be due
to the fact that no telephone or
telegraph wires were near and there
was no interference from other sets.

The boys said this was the most
unique way of furnishing entertain-
ment in camp they ever had and
reported the undertaking a great
success.

OIL NEWS

Two spuddings were scheduled for
today in the Ada oil fields. Ollie
Lancaster and associates were to
spud in their test one half mile west
of the Discovery well in the Bebee
country, the same being on the
Mullins farm.

The American Oil and Refining
Company was to spud in this after-
noon on the Witherspoon and Phelps
farm just north of Ada. This is the
second of two wells the American
has under way in the gas terri-
tory to the north of the city.

Work is in progress on the well
near the Colbert school house, in
section 16-4-6, which is being drilled
by Ed Gillette and others. Sev-
eral Ada men are interested in this
well, and the location is generally
considered rather favorable.

The Carter well, a quarter of a
mile north of the discovery well
in the Bebee territory, is expected
to reach the sand within a few days.
This has been watched closely and
several accounts are in the territory to
see what happens.

Bears hate the smell of musk.

COUNSEL SEEKS TO DISQUALIFY JUDGE BOZARTH

Petition Alleges That an
Organized Mob Caused
Indictment.

SNARE IS FEARED NOW

Robertson Believes Local
Ring is Spreading Trap
for His Downfall.

(By the Associated Press)

OKMULGEE, Aug. 28.—Petition
of Governor J. B. A. Robertson, un-
der indictment in the district court
for alleged acceptance of a bribe,
for the disqualification of District
Judge Mark L. Bozarth and asking
that some other judge from another
district be sent to Okmulgee to try
the case against the governor, was
denied today and the defendant
given three days to begin mandamus
proceedings in either the supreme
court or criminal court of appeals
of Oklahoma in the effort to compel
Judge Bozarth to disqualify him-
self.

OKLAHOMA CITY, Aug. 28.—
Governor J. B. A. Robertson fired
his opening gun today in defense of
a charge of accepting a bribe when
his local counsel at Okmulgee where
he was indicted following a grand
jury investigation into the alleged
irregularities in the state banking
system, filed with the court clerk
a motion to disqualify District Judge
Mark L. Bozarth, as trial judge in
the case.

The motion, according to an an-
nouncement from J. B. Lydick, chief
counsel for the governor, charges
that there is an "organized mob"
at Okmulgee which directed the
return of the indictment against
Governor Robertson and which
Judge Bozarth fears will administer
"cruel and unusual punishment" to
any judge in the county in the
event he fails to do any act within
his official power which the "mob"
desires to have done in the trial of
anyone charged with a crime.

Prejudice Is Charged
As his next ground, Governor
Robertson charges in the petition
that Judge Bozarth is "evidencing
a guilty conscience and in con-
nection with others in high places is
endeavoring to entrap the governor
into a procedure that would force
him to be tried before this pre-
judiced judge," Attorney Lydick said
in a written statement to the As-
sociated Press this morning.

Continuing his attack on Judge
Bozarth, the governor alleges in the
motion that the jurist is a brother
of Ernest Bozarth, former com-
missioner of finance of Henryetta,
who the governor charges with hav-
ing embezzled \$25,000 of city
funds. The alleged felony was com-
pounded, according to Lydick's
statement, with the assistance of
Judge Bozarth and County Attorney
Hepburn, who allowed the former
city commissioner to go without
prosecution after permitting him to
pay back some of the money.

COLLINS IS LAID TO REST MONDAY AS IRISH MOURN

DUBLIN, Aug. 28.—Michael Col-
lins was laid to rest today in Gal-
sven after a demonstration of
national grief such as had been sel-
dom seen in the long centuries of
Ireland's troubled history.

It was a military funeral. Fellow
officer last night had borne the
body into the cathedral just as
Collins, a short fortnight ago, helped
bear the body of his colleague,
Griffith. They had stood guard all
night and were still there this morn-
ing when the solemn requiem high
mass was celebrated.

Arch Bishop Byrne, head of the
Dublin diocese, was the celebrant.
The body was buried in the plot
reserved for those who have fallen
in the cause of the Irish Free
State.

COURTS TO PROSECUTE HERRIN MINE RIOTS

MARION, ILL., Aug. 28.—Vigorous
instruction for a thorough inves-
tigation and the indictment of all
persons involved, directly or indi-
rectly, with the Herrin massacre
June 21 was delivered by Circuit
Judge Hartwell this forenoon to the
special grand jury called to investi-
gate the mine war.

BIBLE THOUGHT FOR TODAY
SPEAK THE GOOD WORD:—Heaviness in the heart of man maketh it stoop; but a good word maketh it glad.—Proverbs 12:25.

The advocates of the new tariff bill have not yet explained how the farmers of the United States are to be benefitted by building a wall about this country which will bar out the foreign goods that the foreigners would exchange for American farm products. The Europeans have little money with which to buy American products and if not permitted to do some exchanging will have to go without. The result will be that the farmers will have a big surplus on hand which they can market only at a loss, if at all. The McKinley tariff bill became a law the latter part of 1890. In 1891 cotton fell to 6 and 7 cents, the lowest point since the civil war. In 1893, following the passage of the Dingley law it dropped to 4 cents, the lowest mark in all history. The slump of 1894 came when the McKinley bill was still in force although the Wilson bill was enacted that fall. However, it did not fall as low as in 1898 and this tumble was the result of the panic Cleveland inherited from the Harrison administration. During the three years of operation of the Wilson law the price picked up but when the Dingley law erecting a high tariff wall was put on the statute books, the price dropped to its lowest point. Will history repeat itself?

The spirit of optimism and hopefulness prevade the air now. Pontotoc county has made a bumper crop this year, except in the matter of cotton. Although a full crop of cotton will not be made it is apparent that more will be picked than was the case last year, hence the people are all feeling better. The farmers showed wisdom this year in giving their first attention to producing something to eat and having succeeded in this they can squeeze by with less cotton than usual, even though it is most unfortunate that weevils and weather have wrought such havoc this year.

The latest thing in the way of strikes is the one being pulled by Henry Ford against being help up by the coal dealers and steel trust. He accuses these interests of trying to profiteer off of him and although he is doing the best business in history, he will sacrifice it all rather than be held up. The public will watch the fight with interest for Ford has resources enough to put up a scrap that the boys will remember.

Some fellow with a philosophical turn of mind recently observed that when labor strives to give a little more than it is paid for, and when capital pays better wages than it is asked to pay, the industrial millenium will have arrived. Present indications are that this period is some distance in the future.

The average American would not for a moment question the loyalty of Gompers and Debs to the cause of labor, but now comes a report that the Red delegates to Lenin's last pow wow at Moscow declared that Lenin and his fellows insist that both men must be kicked out of the ranks of labor. Next.

It is reported that an El Reno grand jury has filed another indictment against Fred Dennis, the missing ex-bank commissioner. No one has been able to locate Dennis so the indictment will not add much to his worries at present.

If President Harding seizes the railroads and mines in order to end the strike what will be the next step? Will he grant the demands of the strikers or take measures to force the strikers back to their work? The average man is a trifle curious about the ultimate working out of such a plan.

John F. Easley, former editor of the Ardmoreite, has been elected secretary of the Ardmore chambe of commerce. This is a fortunate thing for Ardmore, for Easley is a live wire and booster from the jump. Ardmore may be expected to take some long strides now.

The Ardmoreite says it is expecting to see a new leader appear in the near future to lead the hosts of democracy to a great victory. However, the leader is not named by the Ardmoreite.

Heretofore the Germans have adhered to low houses, judged by the American standard, four or five stories being considered high enough. Now they are changing their ideas and are preparing to build some sky scrapers after the American plan. Thus the march of progress continues.

If the senate takes as much time in deliberating on the soldiers' bonus bill as it did the tariff measure, the boys will have to wait sometime yet before getting a settlement. The senate is one legislative body where the minority can hold up a bill indefinitely, the rules making it next to impossible to choke off debate as long as a member wants to talk.

WAITING FOR HIS SHIP TO COME IN

The Fortnight of the Press

Conquering Worry
(Wichita Daily Times)
What worries you most in life? Generally we pick up and face our big problems squarely. Our attitude is, "I'll do the best I can. It won't do any good to worry about it." Then we turn around and worry about a trifling incident or situation.

Dr. Donald Gregg, able physician in Wellies, Mass., writes: "Henry may wake up after sleeping on his arm and be a bit amused to find his hand numb. William, whose father has just had a shock involving his left side, may be quite upset when he finds his arm numb from the same cause that failed to distress Henry."

Worry is a psychopathic condition, an emotional disease. Sometimes it is caused by unconscious vanity—an exaggerated conception of the importance of ourselves and our surroundings.

Most worries are imaginary. Doctors lately notice an exceptionally large number of patients with nothing really wrong with them, yet they are "terribly worried." All they need is the physician's reassurance that the best thing is to forget it.

Now that the medical profession is beginning to understand the endocrine glands of the body, a peculiar cause of worry is discovered. This type of worry sometimes takes the form of a constant apprehension of impending disaster, a fear of nothing in particular, caused by over-secretion of certain chemicals by the thyroid and adrenal glands.

Usually, though, worry is a mental disorder, a sort of escape steam or leak from the disordered nervous system.

People who worry chronically would trade a few years of life to be able to shake off apprehension and brooding anxiety.

First of all according to Dr. Gregg the victim must learn to control himself. That is, bring the will power into play, resolve to accept and meet the problems of life sensibly and calmly.

The best medicine is work and a hobby interesting enough to take the patient's mind off his worry and make him forget it. The worry may come back as soon as the work and play are halted. But generally the brain can be trained to forget, just the same as it can be trained to remember.

The moment you find yourself worrying, strive to dismiss the feet from your mind. Wipe it away, like chalk writing from a blackboard, and concentrate the mind on something else.

Above all, remember that worry is nine-tenths in the imagination.

THE RADIO SLUMP

(Hugo News)
Gripe-bangers are predicting that the radio craze is booked to fizzle out. They are wrong.

Unquestionably, interest in radio is going through a decided slump. It is natural reaction. The novelty is wearing off. Radio is becoming commonplace. Only a few months ago it was as great a marvel as the arrival of a man from Mars.

Interest in the airplane has had much the same reaction. In communities where planes are not uncommon, people look overhead when they hear the hum of the steel locusts. But they do not look with the speed that formerly threatened to dislocate the neck.

Nevertheless, the airplane is forging rapidly ahead. It will be the same with radio.

Manufacturers of radio equipment think that the slump in wireless enthusiasm is due to summer. Their

theory is, that people want to be out doors now in the evenings as much as possible.

In autumn, the manufacturers predict, radio will come back stronger than ever.

If the trade is wise, it will triple its efforts to provide novelty and "class" in the broadcasted music.

Inventive genius, too, must be intensified on improving radio apparatus, especially for eliminating static. An old handbill comes to light in the east, advertising one of the early telephone demonstrations at the city hall in Lawrence, Mass., May 28, 1877. The handbill reads:

"The miracle telephone! Wonderful discovery of the age! Professor A. Graham Bell, assisted by Mr. Frederick A. Gower, will give an exhibition of his wonderful and miraculous discovery, The Telephone, before the people of Lawrence, when Boston and Lawrence will be connected with the Western Union Telegraph, and vocal and instrumental music and conversation will be transmitted a distance of 27 miles and received by the audience in the city hall. Prof. Bell will give an explanatory lecture with this marvelous exhibition."

There's a curious coincidence between "vocal and instrumental music and conversation" over the telephone wire in 1877, and similar service by radio in 1922.

The telephone, considered a marvel, swept popular fancy overnight. Then it had a slump. People began to call it "a scientific top." Many of them predicted that the telephone craze would die out quickly, just as similar predictions are being made now about the radio.

But the telephone hasn't died out. Neither will radio. It is as much in its infancy as Bell's phone was in 1877. And its future is promising.

WALLACE REID HAS A CHILLY TIME ON HOT DESERT

Star of "Across the Continent" Caught in Cloudburst While Screening Picture

The great American desert is not such a hot, dry, sandy place, as it is often pictured in story books, that is, at certain seasons of the year, according to Wallace Reid, Paramount star, who, with his supporting company, under the direction of Philip Rosen, spent several days on the edge of the Mojave filming road scenes for "Across the Continent," a new Paramount picture in which he stars and which will be shown at the McSwain theatre today.

It happened that Wally arrived on the "burning" sands in January, in the midst of a cloudburst, which had cooled the sands considerably. The company worked in water up to their knees, and shivered with the cold.

Mary MacLarsen, the leading woman, shivered so much we couldn't take close ups of her," observed the star, on his return to the studio.

After working for about a week the scenes which should have required only three days, were secured and the company returned to sunny California to make open road scenes.

EXCISE BOARD TO FINISH ESTIMATE

Road and Bridge Budget is
Reduced \$10,250 Under
Last Year's Figure.

After slashing the county road
and bridge estimates last
\$10,250 below that of last year,
members of the county excise board
went back into session Monday to
resume their deliberation upon Pon-
totoc county's annual budget.

Last week the board wound up
work on county and township esti-
mates proper and today were to
start on the city and school esti-
mates.

For the fiscal year just closed
the county road and bridge esti-
mate was \$55,700. This year it was
reduced to \$45,450.

Practically no change was made
in the estimate for Chickasaw town-
ship, according to County Clerk Rit
Erwin, member of the excise board.
It stands at \$11,850. Francis town-
ship estimate suffered a small slash.
Last year it was \$4,460. This year
the board placed it at \$4,300. Allen
township's estimate was reduced in
proportion. Last year it stood at
\$5,200. This year it is \$4,700.

Estimates from other townships
of the county for the two years, in
the same order, follow: Fitchugh—
\$5,000 and \$7,000; Maxwell—\$2,300
and \$2,160; Midland \$4,200 and
\$3,989; Stonewall \$4,400 and \$5,
500.

Speculation was rife today as to
what would happen to city and
county school estimates when they
pass under the pruning shears of
the estimate board. No appreciable
change in the figures of last year
is expected, however.

COURT ORDER IS FILED TO PERMIT BANK SALE

1000 Fans Watch Ada Dash Healdton's Hopes By Shutout

Heavy Hitting in First Innings Proves Undoing of Swift Rivals For State Amateur Championship

Nearly one thousand fans watched Ada dash down the fast Healdton ball club at Fair Grounds Park Sunday afternoon. Ada won 4-0 by pounding Clowers hard in the opening innings.

This is the first time this year any team has scored a shut-out over Healdton. It is also the second victory for Ada from that club.

Ada's team had a somewhat changed line-up, several utility men going in, but it was airtight in the field and all the hitting came at opportune moments. Lefty Waner had good control and allowed only four hits, one man getting as far as third and four to second.

It was the fastest game of the season, being played in one hour and twenty minutes. After the second inning, neither team threatened to score and the pitchers' battle between Clowers and Waner was featured by sensational fielding by both teams.

Things were started in the first inning when Roach smacked out the second ball pitched for a nice single. R. Waner popped out to third trying to bunt, but Young came up with a triple to deep center, scoring Roach. P. Waner was out at first, Clowers to Pittman, but Young scored on the play for Ada's second out.

Kaiser Opens Rally.

In the second frame Kaiser opened for Ada with a fat single and was followed by another single by MacMillan. West was hit by a pitched ball, filling the bases. Fain came through with a long single, scoring Kaiser and MacMillan. The side was retired when poor base running by West and Fain, and a grounder by Roach resulted in three outs. With Fain caught off first and West caught trying to go home, fans saw a great rally abruptly ended.

Waner's hits were scattered. Healdton getting a single in the first, another in the fourth, and others in the sixth and eighth, Ada had two hits in the first inning, three in the second, and one in the fourth, another in the seventh and the last one in the eighth.

Young's fielding at third was a feature of the game. Healdton's first hit went to his territory and he stopped it by a difficult bare-handed catch. At other periods of the game he scooped in batted balls, taking them high, low or to the side. Fain and R. Waner were good in the field also, covering ground fast in many plays to back the pitching of Waner.

Way Is Hero.

The largest crowd of the year watched the game. It probably was the best exhibition of baseball ever seen here and had plenty of real thrills. Only dark spot of the game was injuries received by Umpire Wray, who was almost knocked out in the eighth when hit by a fouled ball while calling strikes behind the plate. Fans appreciated his grit when he decided to stay in the game and call it for the remaining two innings, although suffering so severely that he could not speak.

Play by innings:

First Inning.

Healdton—Osborne lead off with a single, taking first after Young had made a sensational bare-handed catch which almost robbed the runner of a safe single. Osborne pulled up at second on a passed ball. With the first man up taking second before the game had hardly started, Ada players tightened and Myers swung wildly. Fain took in pop flies by English and Woods, retiring the side. No runs, one hit, no errors.

Ada—Roach singled and R. Waner retired on a pop fly to third; Young came through with a long triple to deep center, scoring Roach. He crossed the plate himself a moment later when P. Waner sacrificed, Clowers to Pittman. Rutledge retired the side when he rolled an easy one to Clowers. Two runs, two hits, no errors.

Second Inning.

Healdton—With Haymyer whiffing, Young threw out Williams and Wadley took the three-count route, retiring the side. No runs, no hits, no errors.

Ada—Kaiser hit a long single to center, MacMillan singled through short. West was hit by a pitched ball, putting the bases full. Fain sent safe one to right, scoring Kaiser and MacMillan, with West pulling up at third. Fain was caught off first, trying to take second. Roach was safe at first while West was run down off third. Roach was caught off first while trying to take second on the play with West, retiring the side. Two runs, three hits, no errors.

Third Inning.

Healdton—Pittman was thrown out by Young. Clowers swung wide and retired; Osborne stroled but was forced by Myers, Young to R. Waner. No runs, no hits, no errors.

Ada—R. Waner smacked a long

fly to right, Young fouled out to Woods and P. Waner was thrown out by English. No runs, no hits, no errors.

Fourth Inning.

Healdton—English retired on strikes; Woods was hit by a pitched ball; Haymyer singled, Woods pulling up at third; Williams was thrown out, after Fain had prevented a sacrifice by his cool headwork. Wadley flew out to West. No runs, one hit, no errors.

Ada—Rutledge singled to center. Kaiser forced Rutledge and MacMillan whiffed. Kaiser went to second on Wood's error, but could not go round when West was thrown out. No runs, one hit, one error.

Fifth Inning.

Healdton—Pittman whiffed and Clowers popped to R. Waner, who also threw out Osborne. No runs, no hits, no errors.

Ada—Fain flew out to right, Myers threw out Roach, and R. Waner flew out to center. No runs, no hits, no errors.

Sixth Inning.

Healdton—Young threw Myers out at first; English singled, Woods was out. Kaiser to Rutledge, with English advancing to second; Haymyer picked three bad ones to retire the side. No runs, one hit, no errors.

Ada—Young flew out to right, P. Waner was thrown out by Wadley and Rutledge struck out. No runs, no hits, no errors.

Seventh Inning.

Healdton—Williams was thrown out by Young; Wadley was hit by a pitched ball, but was forced by Pittman, with Young receiving the batted ball. Clowers struck out. No runs, no hits, no errors.

Ada—Kaiser flew out to short; MacMillan struck out and West took a life on Wadley's error. Fain singled, West pulling up at second. Roach popped out to Pittman. No runs, one hit, one error.

Eighth Inning.

Healdton—Osborne was out, Rutledge to P. Waner; Myers whiffed for the second out. With English to bat, Umpire Wray was struck by a fouled ball, which temporarily delayed the game while first aid was administered. After a brief rest, Wray's grit took the upper hand and he decided to complete the game, with the fans shouting their approval. English singled after the start of the game again, but was forced by Woods, Fain taking the batted ball. No runs, one hit, no errors.

Ada—R. Waner swung wildly; Young smacked his third long one of the game, but it was gathered in by Haymyer in deep center; P. Waner singled to center but Rutledge flew out to left, retiring the side. No runs, one hit, no errors.

Ninth Inning.

Healdton—Haymyer was out, Young taking the batted ball; Williams walked, but a fast double play prevented scoring when Wadley and Williams were out, Young to Fain to Rutledge. No runs, no hits, no errors.

Kilbane Prepares to Defend Honors in Dundee Battle

(By the Associated Press)

CLEVELAND, OHIO, Aug. 28.—Jonny Kilbane, for ten years holder of the featherweight championship, is getting ready for the defense of his title, with a view of a match with Jonny Dundee of New York, the featherweight tender.

Kilbane, according to his admirers, today has shown a new interest in boxing since Dundee scored a knockout over Danny Frush in New York. Frush also fell a victim to Kilbane's right hand smashes in a championship match here a year ago. The featherweight champion, if he agrees to box Dundee, probably will insist upon staging the match in Cleveland.

Friends of Kilbane say he is willing to meet Dundee, but since the New York boxing commission recently declared his title forfeited, it will be only when the champion gets ready and will be for a sizeable purse. Those close to Kilbane believe he will expect his share of the purse for a bout with Dundee to total between \$75,000 and \$100,000. Kilbane is in good condition, as a result of several weeks of light training and work on his newly purchased summer home near Vermillion, Ohio, on Lake Erie, and it would not take him long to reach his top form, according to his followers.

The champion will not be crowded into any match, his friends declare, and several telegrams from New York promoters asking for his terms have met with no response.

McAlester—The estimate of the McAlester school district was slashed almost last recognition Wednesday, according to the report of the excise board. A cut of \$32,135 was made.

Bill Killefer is a bear, These Cubs Say

Left to right, Charley Hollocher, Hack Miller, Ray Grimes, Barney Friberg, "Twin Six" Statz and Bob O'Farrell.

By Norman E. Brown
Keep your eyes on Bill Killefer's Cubs.

They're going to be full grown Bears next year.

For the big HE-BEAR, Killefer, has been feeding them well and sharpening their claws. Above are placed on exhibition five of these young Cubs and another older bear, who are making the Cubs the most feared team in the National League even now. True, the Cubs have only an outside chance of landing the pennant. But the Windy City team can throw the proverbial monkey wrench in the flag chasing machinery of either the Cardinals or Giants, now insiders in the race.

Killefer has one of the best young outfielders the game has seen in years. Hack Miller obtained from Oakland; "Twin Six" Statz, bought him from Los Angeles, and Barney Friberg, hooked from Kansas City, are already making bids for honors in their respective gardens. They may lack finesse and may pull bobbles once in a while. But they make up for these shortcomings with their pep, spirit and slugging.

In the outfield, Charley Hollocher, young in years although now ranked as a veteran in the line-up, is having the most brilliant year of his career. His sparkling fielding is the feature of every game and he is hitting a fast gait. At first, Ray Grimes, brother of the flinging Bur-

leigh Grimes, is fielding wonderfully and giving every indication that he is seeking the first base honors.

Behind the plate, Bob O'Farrell is catching the ball in a manner that reminds the fans of Killefer himself.

The Cub pilot has taken pride in teaching O'Farrell the job. Bob has been in the big show a few seasons, but apparently is just hitting his real stride.

With the pitching prospects Killefer has lined up and the other moves that will be made to strengthen the weak spot in the team next season, all considered the Cubs today look ready to make a bid for the 1923 pennant.

We hereby nominate them.

defend their championship honors this year.

Last year 14,000 people witnessed the race which starts at Cascade and runs for 22 miles over the serpentine automobile highway to the summit of Pikes Peak. This year plans are being made to entertain at least 20,000 visitors and the demand for reservations indicate that this number will be entirely insufficient.

Officials of the A. A. A. under whose auspices the race will be run, already are on the ground, making their tests of timing and starting devices, and already 19 of the twenty-seven starting cars are here for practice spins on the highway.

Muskogee.—R. M. Mountjoy, formerly a member of the Oklahoma department American Legion executive committee, and U. S. Commissioner here, is laying plans to arouse interest in the Legion in the second congressional district. Mountjoy said recently that he had written to state headquarters of the Legion asking for the names of all post commanders and post adjutants in the district.

Twenty-seven racing cars are entered for the event, piloted by some of the best known and most daring road race drivers in the country and Rhyley and his Big Hudson will face the biggest field of starters in the history of the course, when they

ladies tournament has already arrived at the final match and it will be played at the same time the men going for the last round.

Mr. Schienberg said that as soon as the scores of the semi-final matches were turned in he would set dates for the two final matches which will decide the man and woman champion in the Elks Golf tournament.

27 Racing Cars May Compete for Honors in Pikes Peak Dash

COLORADO SPRINGS, Aug. 28.—King Rhyley, peer of the dirt track drivers and winner of last year's Pikes Peak auto races, will have his work cut out for him in defending his title when the big road race classic is started on September 5.

Semi-final matches in the men's division must be completed by next Wednesday, Harry Schienberg said this morning. This will leave three candidates for the final match. The

Atlanta Prison to Train Fast Eleven for Football Field

(By the Associated Press)

ATLANTA, Aug. 28.—College athletes are not the only ones whose thoughts are turning to the football field. The inmates of the Atlanta federal penitentiary, after finishing a successful baseball season, already have taken up the grind that is necessary to team work on the gridiron, and have sent out a challenge for games with fast local elevens.

"We are in the field this year with a high class organization of football players consisting of ex-college stars, and we would like to arrange games with some good semi-professional aggregations about the city," says the fall announcement.

For any of the 2,000 or more men at the prison to "make the team," demands great effort as the championship baseball nine has been allowed at times to play on fields beyond the grim walls surrounding the grounds of the institution, and the football stars are hoping they may get the same treatment.

Mangum.—Paul Garrett Post 121, local American Legion organization will put forward its commander, Dr. F. H. McGregor, as a candidate for state commander at the Bartlesville convention in September, officers of the post have announced. Dr.

McGregor in active not only in legion affairs but also in civic movements here. He was discharged from the army as a major.

Heavy rains in recent weeks have caused great property damage in many towns in England and ruined millions of dollars worth of crops in the rural districts. Village residents in many instances have the most of the floods and held swimming parties in the streets.

BIG 10 COACHES STICK CLOSE TO WORK ON TEAMS

(By the Associated Press)

URBANA, ILL., Aug. 28.—Big Ten athletic directors this summer more than in any previous year are remaining close to their duties at their institutions. Major John L. Griffith, new commissioner of athletics in the western conference, has definitely heard from each of the big chiefs.

In past years the conference directors have taken to the woods and lakes of the north for vacations previous to their big seasons in athletics, but this summer they are combining their vacations with duties in their summer athletic coaching schools and also supervising in the construction of new stadiums.

Fielding H. Yost of Michigan remained at Ann Arbor the whole summer finishing a successful year in his new summer athletic coaching school and aiding in the construction of the new Wolverine athletic field house. Ewald O. Stehm of Indiana supervised the Hoosier summer coaching school and is now on a vacation in the lake region of Wisconsin.

Larry W. St. John of Ohio State is taking his vacation in Columbus, spending most of his time in the construction of the new Buckeye stadium which will be dedicated Oct. 21 with the Michigan game. A. A. Stagg is teaching physical education at the University of Chicago and will remain there for the rest of the summer with no vacation before his football season.

Tom Jones, the Badger director, has been instructing in track athletics in Columbus university, New York City, while Fred Luhring of Minnesota is at his summer camp in the White Mountains of New Hampshire. Major Nelson K. Kellogg spent his pre-football days at Battle Creek, Mich., but only after having instructed in the new Purdue coaching school. He also aided in the enlarging of the Boilermaker gridiron.

Howard Jones of Iowa saw the completion of the new Hawk steel grandstands for the football season at Iowa City. Dana M. Evans of Northwestern is passing his vacation in New Jersey.

We hereby nominate them.

defend their championship honors this year.

Last year 14,000 people witnessed the race which starts at Cascade and runs for 22 miles over the serpentine automobile highway to the summit of Pikes Peak. This year plans are being made to entertain at least 20,000 visitors and the demand for reservations indicate that this number will be entirely insufficient.

Officials of the A. A. A. under whose auspices the race will be run, already are on the ground, making their tests of timing and starting devices, and already 19 of the twenty-seven starting cars are here for practice spins on the highway.

Muskogee.—R. M. Mountjoy, formerly a member of the Oklahoma department American Legion executive committee, and U. S. Commissioner here, is laying plans to arouse interest in the Legion in the second congressional district. Mountjoy said recently that he had written to state headquarters of the Legion asking for the names of all post commanders and post adjutants in the district.

Twenty-seven racing cars are entered for the event, piloted by some of the best known and most daring road race drivers in the country and Rhyley and his Big Hudson will face the biggest field of starters in the history of the course, when they

ladies tournament has already arrived at the final match and it will be played at the same time the men

Van Curons Entertain
Mr. and Mrs. S. L. Van Curon entertained a number of friends at Sulphur Sunday. Those in the party were Misses Daisy Hawkins, Margaret Chilcutt, Ollie and Pauline Van Curon, Mrs. B. M. Patterson and son, Billie, Mr. Turner and son, Leon, Manson Hawkins and Clinton Craig and Coleman Van Curon.

His Speech Gone Local Ump Stays Gamely Upon Job

Few people who witnessed Sunday's game between Healdton and Ada realized that the hardest fight put up by any one on the field was that which Walter Wray made to stay in the game after being injured by a foul ball in the eighth inning.

Umpire Wray had been hit by two balls previous to the eighth inning, but neither caused him much pain. With English of Healdton at bat, Wray was standing behind Kaiser calling the plate when a foul ball caught him in the left side, dislocating a rib.

He was almost knocked unconscious but recovered after first aid treatment. The remainder of the game was one of agony for him. He could not even talk. After the game was completed Wray fainted and had to have the attention of a physician. He was much better today and will recover rapidly, it was said.

Both fans and all teams who have played here this season are unanimous in voting Wray to be one of the best and most impartial officials who ever walked on the Ada field.

MANILA WOMEN ARE BARRED FROM BOXING

MANILA, P. I.—Women are prohibited from engaging in boxing matches of any sort, amateur or professional, by an ordinance passed this week by the municipal board. The ordinance provides a penalty of six months imprisonment or a fine of \$100 or both for any woman taking part in a boxing match and any person promoting a boxing match between women will suffer the same punishment as the principals.

LOCAL PASTOR CLOSES ROFF REVIVAL MEETING

Rev. C. C. Morris, pastor of the First Baptist church, returned to Ada today from Roff where he closed last night a successful revival meeting. Sixty-seven persons were taken into the church and 49 were baptized by the Roff pastor this morning. Rev. Morris was making preparations to leave this afternoon for Vanoss to open another revival.

COLORADO ARMY POLO TEAM WINS TOURNEY

COLORADO SPRINGS, Aug. 28.—To Ft. Leavenworth post goes the premier polo honors of the west, as a result of the Western open polo tourney held here this week. While there still remain three games to be played, the army quartet has a perfect record and even a straight set of losses would still give them the title honors on a percentage basis.

The honor came following a hard fight through the semi-finals when Colorado Springs, Denver and Ft. Leavenworth teams battled for the supremacy honors.

The army team, made up of experienced players, with wonderful mounts, battled their way through seven straight games and the title.

NORTHWESTERN U. TO ADMIT STATE YOUTH

(By the Associated Press)
CHICAGO, Aug. 28.—Northwestern University has waived its "sixteen years age limit" eligibility rules for Will Moore Kendall, junior of Mangum, Okla. Prof. Roy Frickinger, dean of the college of liberal arts, and the registrar, decided the Oklahoma youth had accumulated enough knowledge in thirteen years to put him on even terms with students several years his senior.

TEXAS MINE STRIKE AT AN END MONDAY

(By the Associated Press)
FT. WORTH, Aug. 28.—The strike of Texas coal miners has been settled and union miners are back at work except in the mines which have been declared open shop, it was announced Monday. Approximately 200 men returned to the shafts and the miners are now operating full capacity.

BISHOP DICKEY NAMED LEADER OF CONFERENCE

(By the Associated Press)
WACO, Aug. 28.—Bishop J. E. Dickey, of Georgia, one of the new bishops elected at the Hot Springs, Ark., conference of the Methodist Episcopal church, South, has been given the presidency of Texas conferences and will reside here. He succeeds Bishop Ainsworth who goes to Macon, Ga.

Pimples Keep Young Men Down!

They Make Women, Too, a Puzzle! How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price—you pay for every pimple, black-head and pimple on your face. Pimples produce prejudice and prevent prosperity. Your heart may be gold,

S. S. S. Will Rid You of the Crushing Pimple-Calamity.

but who wants to kiss eruptions? Pimples don't look like the owners of anything. Pimple women, too, are puzzles, with no prospects and no power. Young men and women, here's the positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleanser. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on lost flesh in a hurry, why you hear of so many rheumatics being freed from this scourge, with S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddier, your flesh firmer. It will give you a boost in your career. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

CHICHESTER'S PILLS
THE DIAMOND BRAND.
This is the only brand of pills in the world that is sold in a diamond-shaped box. The pills are made of pure vegetable matter, and are sold in a diamond-shaped box. Buy your pills from a druggist, and you will get the real thing. Sold by druggists everywhere.

8,000 HIKING CLUBS IN GREATER NEW YORK

They Swing Along Highways and Through Woods in Groups of Varying Size.

New York.—One must walk nowadays to be in the swim. Statistics gleaned from the out-door departments of the newspapers, from the Boy Scout and Campfire Girls' organizations, from the Y. M. C. A. branches and kindred bodies, from scores of amateur athletic clubs and from the leading dealers in sporting goods, indicate that

"Best Walkers Make Best Citizens," Says Mayor of New York.

today there are no less than 8,000 hiking clubs in Greater New York, with a total membership of more than a quarter of a million men and women, who are keeping themselves in the pink of condition and experiencing the real joy of living by getting regularly out into the open country with no other means of locomotion than their God-given legs.

The city of New York has taken official notice of the movement. On three occasions recently Mayor Hylan has congratulated the boys and girls of the public schools upon their enthusiasm in taking up the new sport of hiking. In his dedication of the great new public playground in the Bronx the other day Mayor Hylan extolled the athletic tendencies of the boys and girls and impressed upon them that there was no better or more profitable way in which they could pass their vacations and utilize their holidays than by the excursions into field and forest of their walking clubs. He gave the same message to the Amateur Athletic Union of Brooklyn a few days later, and when a club of East Side boys and girls visited him at city hall preparatory to a hike to the tomb of Roosevelt at Oyster Bay he assured them that the best walkers among them would make the best citizens.

Walk and Be Well

No less enthusiastic a champion of the walking game is Dr. Royal S. Copeland, city health commissioner. "The benefit to health and the safeguard to morals to be found in long walks," said Dr. Copeland in an interview, "are too apparent to speak of them. If one takes long walks alone it is well, for he walks the road of health, but if he takes long walks in company it is better for he adds the tonic of companionship to his exercise. Walking is the one form of exercise in which there is the minimum risk of overdoing it. In short, I consider walking the most beneficial of all exercises and it is never out of season."

"Never in my life-time," said Dr. Copeland, "have I known such a demand as now for outdoor garments and shoes and stockings and appliances for the tourist's luncheon box. The rapid spread and tremendous popularity of the walking-club idea has no parallel in our experience."

"The hiker can make his requisites just what he feels like spending. Really, there are only two or three articles indispensable to hiking—thick walking shoes that allow lots of room, thick woolen socks and clothing that will give freedom of limb. He should have a canvas or leather musette bag, such as the soldiers used in France."

The Cow in the Knapack
To get the real benefit and joy out of hiking luncheon should be carried and prepared and eaten in the open. Bread and cheese, a few slices of bacon, some coffee, a can of condensed milk, and a cake of chocolate furnish high-powered fuel for the hiker and are readily and happily assimilated even by those who in their pre-hiking days were afflicted with digestive apparatus so feeble as to balk at crackers and milk. Fortunately for the hiker, he can replenish his simple larder at any cross-roads store and provide himself with the most nutritious and appetizing food in a form that can be conveniently carried.

No single development in the problem of food transportation for the hunter, fisherman, hiker and all lovers of the out-of-doors can compare with the gift bestowed by the man who first found the way to make condensed milk, thereby putting a dairy in every man's knapsack. Before long there will be a national association of hikers, and Gail Borden will be its patron saint. Such an association could do much to encourage the spread of the most beneficial and universal of all outdoor pastimes, map out interesting routes, secure the establishment of shelters, rest-stations, and camp sites at suitable locations, and insure the rights of pedestrians on country roads.

MINERS WORKING IN SHAFT 4,000 FEET

(By the Associated Press)

DULUTH, Minn., Aug. 3.—Following up the rich deposits of iron ore which trace downward as they extend easterly along the Gogebic range in Michigan, the Oliver Iron Mining Company contemplates sinking a shaft which, when completed, will make ore mining possible at the record depth of 4,000 feet. This announcement was made at the headquarters of the firm which controls approximately 50 per cent of the mining property in the Lake Superior district.

The deepest ore mine shaft now in operation is at the Davis mine, adjoining the Geneva mine where the new shaft is now being sunk. Ore is being mined at 2,600 feet here.

It is estimated that more than \$1,000,000 will be spent in sinking the shaft, which will be steel lined. Five years at the best will be required to complete the work, it was said.

With everything past the experimental stage with the exception of one important question—that of miners being able to stand the heat at that depth—the company is proceeding with work on the Geneva shaft.

Miners are working more than a mile underground in the Lake Superior copper district about 100 miles from this ore mining point, but the copper mines are nearer Lake Superior and engineers contend that the waters of the lake cool the rock, thus permitting work at this depth. Whether it will be possible to work men this far below the surface of the earth in a bed of ore rock is still an uncertainty, but with various other obstacles removed, engineers consider it safe to proceed with the tremendous undertaking.

Successful conclusion of this project will greatly lengthen the life of ore mining on the Gogebic range, location of the oldest properties in the district and will therefore add millions of dollars to the wealth of this region, it was said.

Sun Yat Sen Forces Reported Beaten in Battle With Royals

(By the Associated Press)

CANTON, China, Aug. 2.—Chen Siung Ming's forces, who are favorable to the Peking republic, have defeated the troops of Sun Yat Sen, the deposed president of the Canton republic, and driven them from Chiehchow, 130 miles north of Canton, into a point beyond Chi Hung, more than 40 miles northeast of Shiehchow according to a bulletin given out at General Ming's Canton headquarters.

The bulletin says the Chen Siung Ming army captured 2,000 rifles, 21 machine guns and nine cannons. Sun Yat Sen's losses are placed at 3,000 killed, wounded or captured. Chen's losses are not reported.

Another bulletin claimed victory for Chen near Yungyun about forty miles southeast of Chiehchow, with capture of 8,000 rifles. Sun Yat Sen announced today that he had received no advices from the battle front.

WALTON CARRIES COAL COUNTY BY EASY PLURALITY

(By the Associated Press)

LEHIGH, Okla., Aug. 2.—(Special)—J. C. Walton, farmer-labor candidate for democratic nomination for governor, carried Coal county by a 300 plurality, his nearest opponent R. H. Wilson, according to reports received from precincts here and over the county. He carried Durant county by a slightly larger margin, according to reports.

Atoka county is also reported to have gone almost solidly for the Farmers alliance ticket. M. A. Nash is reported to be an easy leader for nomination as superintendent of the state board of education. Attorney General George Short, candidate for nomination to the office he now holds, was also gaining on reports from scattered precincts.

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says she always wore skirts all the time until this year and never expected to wear anything else, but it's strange how quickly one becomes accustomed to appearing in pantalones.

ANOTHER WOMAN IN SENATE FIGHT

Mrs. Frances C. Artell.

Mrs. Frances C. Artell, Bellingham, Wash., endorsed by the state Federation of Labor, the Non-Partisan league and the Railway Men's Political league, is the latest candidate to enter the fight for the Republican nomination for U. S. senator in Washington. She is making a spirited campaign and political leaders admit that she may win the nomination.

COAL MINING REGION IS READY FOR GUARDS

(By the Associated Press)

BRAZIL, Ind., Aug. 2.—Preparations for the arrival of the Indiana national guard troops who will protect mines to be operated under state supervision were made today by guard officials at Staunton, Cloverland, Williamson, and Turner and Posey townships. These are all mining communities in Clay county. The troops are expected this afternoon.

SHERIFF IS ARRESTED ON CONTEMPT CHARGE

(By the Associated Press)

MCALISTER, Aug. 2.—As a sequel to the replacement of federal guards recently in the railroad yards of the Rock Island at Halleyville, Sheriff William Sanders was arrested Tuesday evening by a deputy United States marshal from Muskogee and taken to that place to face arraignment on charges of contempt of court.

ONE KILLED IN STEAM BOILER BLAST TODAY

TULSA, Aug. 2.—One person was killed and four others probably fatally injured this morning when a steam boiler exploded on the Oklahoma Arrow laundry on the outskirts of Broken Arrow. It was reported by chief of police of Broken Arrow.

GOVERNMENT PLANS CHART FOR DEPTHS

(By the Associated Press)

PHILADELPHIA, Aug. 2.—Two former mine sweepers, turning from the pursuits of war to those of peace and science, are being remodeled in Delaware river shipyards, and are nearly ready to weigh anchor to start on an indefinitely long cruise in the Pacific ocean for the United States coast and geodetic survey.

They are steamers Pioneer and Discoverer, formerly the Ank and the Osprey, which saw service in the North Sea. Now they are to be equipped with the finest scientific instruments for sounding and surveying.

Some time during the summer they are to pass through the Panama canal and proceed up the Pacific coast to Alaska to sound and survey uncharted territory.

Contrary to general belief, it was said, there still remains much uncharted territory in that region, and many places show channels incorrectly marked and sounded. Also some places once correctly surveyed and sounded, have been altered by the constant action of the waves.

Eleven officers and 53 men have been enlisted to man each vessel, and with the exception of the two commanding officers the crews have been selected.

The coast and geodetic survey has taken over also a third mine sweeper, the Flamingo, from the navy department, now lying at Portsmouth, N. H., enlisting a crew. Following alterations, she probably will join her sister ships in Alaskan waters.

Card of Thanks.
We wish to announce to our many friends for their help and kindness during the recent sickness and death of our baby boy, William Francis Stark.

MR. AND MRS. W. W. STARK.

Senator Crowe Dies.
UNION TOWN, Pa., Aug. 2.—United States Senator William E. Crowe died at his country home in the mountains near here this morning.

Senator Crowe was taken ill three years ago and although under the care of eminent physicians, was never afterwards considered physically fit.

Fuel Problem Solved.
"Oh, George," she sobbed "I've burned the biscuits."
"I'm glad you've found a use for them, retorted her husband. Cruel and Unusual

Visitor: "And does papa punish his little boy when he's naughty?" Small Bay (bitterly): "Yethum. He things me to thleep."

The University of Pavia, Italy, is said to have been founded by Charlemagne in 774.

THANKS!

I appreciate most heartily the support my friends accorded me in the race for the Democratic nomination for the Legislature.

RESCUED

By GERTRUDE CUSHING

(C. 1922, by McClure Newspaper Syndicate.)

A swift, silent scuffle, the odds all on one side—then two men go dumbly to the corner, the one in blue with brass buttons stepping with all the stolid decision his dragging charge permits. A word whispered into a police patrol box. A quick-drawn, staring crowd, men and boys, women and girls, thrusting heads forward, peering with sickening curiosity, some almost fingering the shrinking victim. The clangor of a rapidly approaching gong.

As it comes nearer the boy pulls out a decent handkerchief and covers his face from the disgusting audience. He had been drunk before—he didn't mind that so much—or the corrective hand of the law; but those staring faces!

At the first sound of the gong on the patrol three girls in an office high above the street gave interested attention.

"Here comes Mr. Volstead!" cried one.

The tableau being enacted below was getting to be an ordinary occurrence to the girls.

"Oh, dear! Isn't it too bad!"

"He looks so ashamed—"

"Yes, and he's well dressed—and clean. It makes me want to do something."

All the afternoon the last speaker tried in vain to forget the scene.

By closing time the desire to "do something," obsessed her. She ceased combating it. She let it lead her.

Scant of breath and weak of voice, but resolute, she entered the nearest police station. Question and answer followed, short and direct. Her description was exact. The man was there.

"But what do you want with him? Do you know him?"

The girl's cheeks flamed. "Oh, no! I couldn't come, you know, if I did. I thought—I am sure it must be the first time. Perhaps he'd like to send for someone."

"No, ma'am, it's not the first time. It's the third time in two months."

The girl had done war work—many kinds of war work.

"You ought to see that I'm not like most girls, I'm older," she told the officer, "and I understand things. I know how to talk to them."

"Oh, well," thought the officer, "I might as well let her do something. She'll go quicker." So: "He's a queer duck. Always wants paper and pencil. Bring him some, if you want to."

It was not easy to make the object of her solicitude talk. He took the paper, thanked her indifferently, waited for her to go. "If you'll write quickly," she coaxed him, "I'll mail it."

"I can't," he faltered. "My head—it's all mixed up—aches horribly. . . . What did you come here for?" This last with sudden interest.

"To help you. I'll write it for you. You tell me what to say. Do you want to send for someone?"

This roused him. "For heaven's sake, no! Don't you tell her!" he cried.

Then he began to sob, weakly. After that he talked. For sympathy, perhaps, or perhaps he yielded to the girl's stronger will. As he talked she wrote, adroit questioning giving her what she needed to know.

"I was always no good," he told her, "until the war. I'm not a coward. I volunteered. Went to France, 1914. I was a lieutenant when it finished—by promotion. She knows that. I tell her all the good things."

Still following impulse, the girl countered: "You said you were not a coward. Prove it. Make a fight for her sake—and mine."

"For yours? You mean that?"

Frightened at the thrill in the man's voice—at the thrill in herself—she turned to go. He dropped to his knees. His lips pressed the hem of her dress. "You'll come again?" he entreated. "Perhaps."

The next day the city police boat collided with a ferry boat while crossing the harbor. Above the dull thud of the impact, the splintering of wood and women's screams, came the cry of "Woman overboard!"

On the police boat a man, madly cursing, fought his keepers, flung them aside and plunged into the churning water. But a few hours before a girl had summoned him to new life—to prove his manhood, and now—

"O, God, let me save her!" he prayed.

They were both conscious when lifted into the lifeboat.

"You," she whispered, in wonder.

"Oh, I'm glad—I'm glad!"

"Quick, your name," he urged.

"Where shall I find you—after three months?"

She answered, then closed her eyes in a happy stupor. Gently, with infinite respect, they led him away.

Held 'Em, Men!

It was moonlight on the river.

"Isn't it wonderful!" she sighed, lifting her paddle gently. "How lovely the moonpath is, reaching from the very throne of God to earth! See how silver the drops falling from my paddle! Ah, the very night itself is perfumed with sentiment, and every-

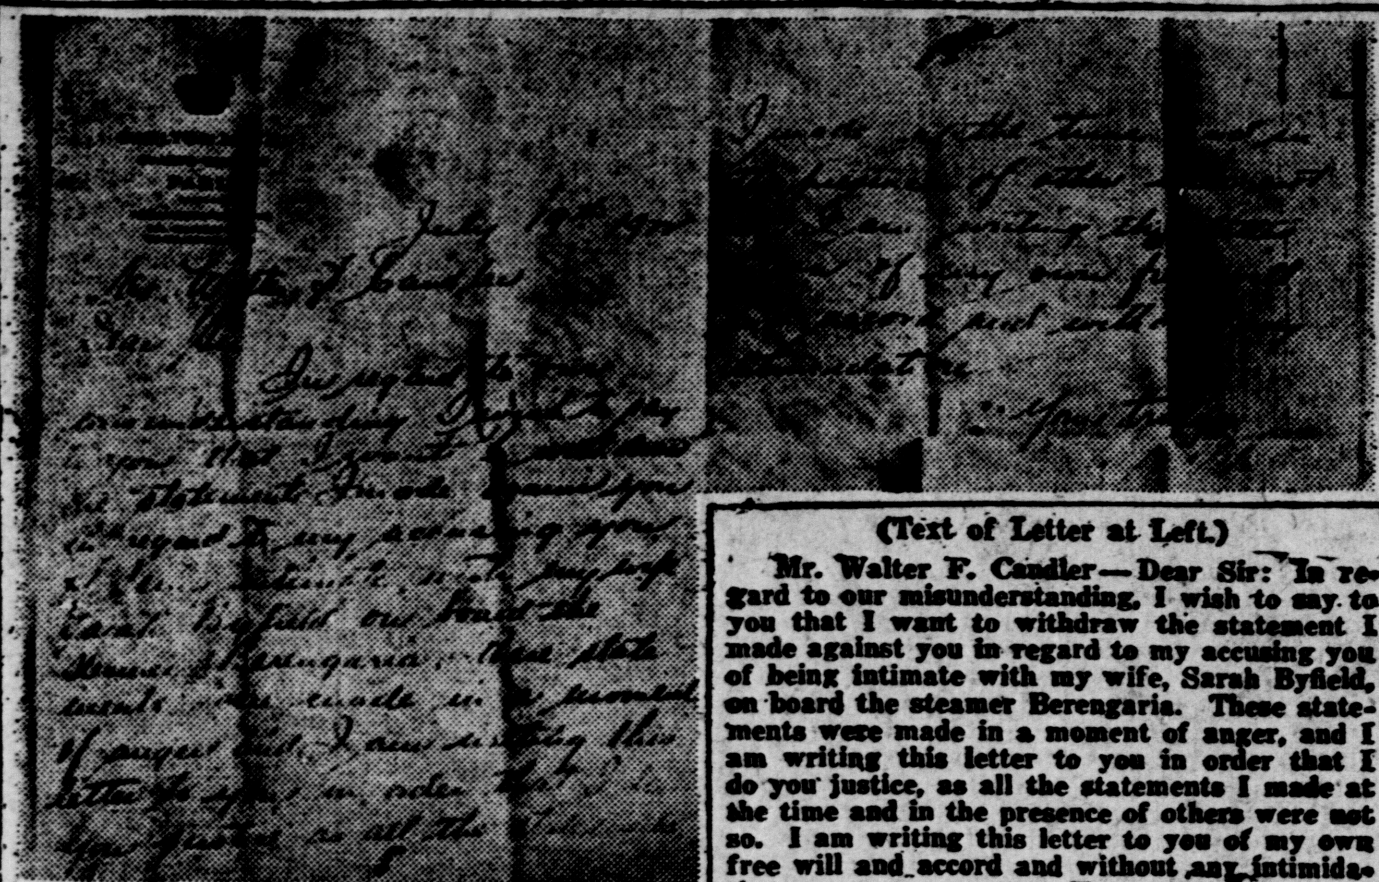

where—"

"Say," he interrupted, "cut that out, will you? I come mighty near getting myself engaged to a girl that talked that way in a canoe!"—Richmond Times-Dispatch.

The new dictionaries doubtless will define a "sinking spell" as a derad, unusual term.

LETTER PURPORTS TO EXONERATE MILLIONAIRE

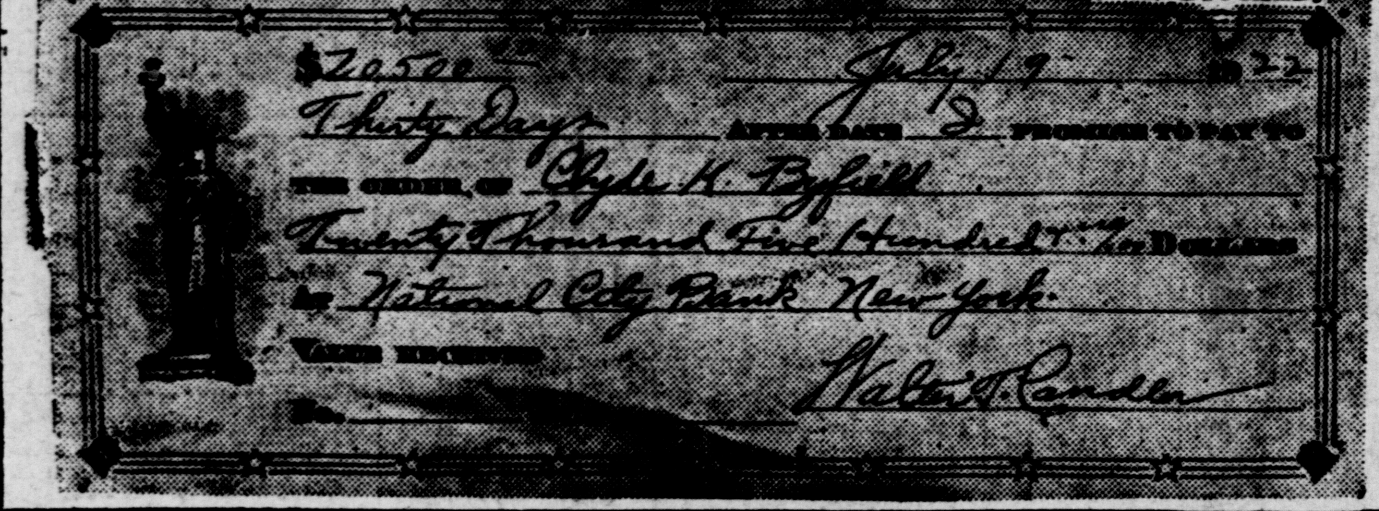

(Text of Letter at Left.)

Mr. Walter F. Candler—Dear Sir: In regard to our misunderstanding, I wish to say to you that I want to withdraw the statement I made against you in regard to my accusation of being intimate with my wife, Sarah Byfield, on board the steamer Berengaria. These statements were made in a moment of anger, and I am writing this letter to you in order that I do you justice, as all the statements I made at the time and in the presence of others were not so. I am writing this letter to you of my own free will and accord and without any intimidation.

Yours truly,

C. K. BYFIELD.

Check that brought the expose of Walter T. Candler's alleged attack on Mrs. Clyde Byfield in her cabin on the Berengaria and the letter which Candler says exonerates him of the charges.

(By Central Press)

ATLANTA, Aug. 26.—The most sensational development in the Byfield-Candler scandal since the news of the alleged attack became public came when a letter, purporting to have been written by Clyde K. Byfield, was made public.

The letter exonerates Walter T. Candler, son of Asa Candler, the millionaire Coca Cola king, of the charges of Byfield and his wife that he attacked Mrs. Byfield in her cabin on the liner Berengaria.

The letter is written on the stationery of the Carlton Hotel, Paris, and dated July 19. It reads:

Mr. Walter T. Candler—Dear Sir: In regard to our misunderstanding,

I wish to say to you that I want to withdraw the statement I made against you in regard to accusing you of being intimate with my wife Sarah Byfield, on board the steamer Berengaria. These statements were made in a moment of anger and I am writing this letter to you in order that I do you justice as all the statements I made at that time and in the presence of others were not so. I am writing this letter to you of my own free will and accord and without any intimidation.

Yours truly,

C. K. Byfield.

In her \$100,000 suit Mrs. Byfield charged that Candler attacked her in her cabin after she had re-

tired and that a fight ensued when her husband answered her calls for help.

Candler admitted that he had been in Mrs. Byfield's cabin but denied his conduct had been in the least improper. He charged that he was the victim of a blackmail plot.

The first inkling of the trouble aboard the Berengaria came when Candler went to court to stop payment of a note for \$20,500 which he had given Byfield.

He charged that this had been forced from him by Byfield.

Mrs. Byfield's suit followed this exposure.

Neither Byfield nor his wife, as yet, have commented on the letter.

Farmers' Column

By Byron Norrell

Cotton is opening now, the process being hastened by the hot weather of the past few weeks. Most places have received their first bales and the season may be said to be getting fairly under way. The size of the crop in Oklahoma is still largely a matter of conjecture, it being impossible to estimate the damage to the large bolls or how many may be expected to open. It is settled that the squares putting on now will be ruined beyond any possibility of a top crop. From our own observations and those of men I think are competent judges, I would place the crop in Pontotoc county anywhere from 7,000 to 10,000 bales. This is a wide margin, to be sure, but there is no way to estimate the damage that the weevils will do before the crop opens. Then too, the acreage has been cut considerably, according to the state board of agriculture, and this makes a difference.

It will soon be in order to sow wheat, barley or something for winter pastures. It needs no argument to prove that livestock and poultry thrive much better when they have plenty of green stuff.

The hen of Pontotoc county has done her part to make the situation better during the past year. Many a family has paid for many necessities by selling eggs and chickens.

I am of the opinion that only a beginning has been made in this important branch of farming and that in a few years hundreds of cars will be shipped annually from this section.

Oklahoma Crop Notes.

OKLAHOMA CITY, August 26, 1922.—Oklahoma for the year 1922 will see more fairs staged than ever before in its history. Communities of both large and small caliber have planned exhibitions that will outshine anything ever attempted. This number of the crop notes has been given over as "Fair Number" with the view that it may inspire and increase interest in Oklahoma's greatest industry and institutions.

When the gates of our fairs are opened this year, visitors will be given an opportunity to view the height of human achievement; that which has placed Oklahoma in top ranks. County fairs are bigger and better than ever before and along with that feeling of seriousness that will prevail throughout, good wholesome amusement will be supplied in every instance. Our fairs are excellent educational short courses and should be attended by every citizen.

The Oklahoma Free State Fair, established in the year 1916, will open its season at Muskogee, October 2nd. From a small beginning, when the dairy exhibits only consisted of one pound of butter, the fair has grown to enormous proportions in both size and quality. The Oklahoma Free State fair has the name of being the largest "free" fair association in the world and is rated as a "million dollar plant." One other free fair, located at To-

peko (Kan.), is second.

Ethel Murray Simonds, secretary of the Oklahoma Free State fair, says that this year will be the largest on record. Agricultural exhibits are larger and more representative than heretofore. Livestock exhibits are larger; premiums offered in the different departments will compare favorably with a number of the older state fairs and, in fact, are better than most of them. Added attractions have been secured for amusement seekers and bid fair to provide a more diversified form of entertainment.

The Oklahoma State Fair & Exposition will be held at Oklahoma City, September 23 to 30, 1922. Each year in the past, the officers and directors of this fair have promised that the coming fair would be bigger and better than ever, and so far they have made good. This year to substantiate their statements they give the following:

Indications are that the cattle and hog show will be larger in both quality and numbers than any in the past; the agricultural exhibits will exceed last year, as is the case with dairy, horticultural and other exhibits. Practically all space in the exhibits building has been sold and the machinery field will be full of the most up-to-date machinery on the market. A high class program of entertainment has been secured by the management. Lovers of the race track will be given opportunity to view attempts to break records.

A list of fairs to be held in Oklahoma during the 1922 season has been prepared by the Board of Agriculture and may be supplied upon request.

J. A. WHITEHURST, President, State Board of Agriculture.

An economist says the idle are always a menace. This is especially true of idle rumors.
